Our business

Our software and technology provides the foundation from which large landlords and flex workspace providers can deliver seamless, connected, in-building and cross-portfolio digital experiences.

Our mission critical software automates the control and management of in-building digital services, delivering streamlined tenant on-boarding, simplified management of network services, booking and billing tools and deep insight.

The future of work is flexible...

Our vision is to power the world's largest community of flexible, tech driven spaces.

Helping our customers deliver digitally enabled buildings and spaces since 2006

Long-term structural market drivers

血

Increasing risk of competitive obsolescence and financial underperformance for commodity, class B and class C products

Clear economic drivers for landlords

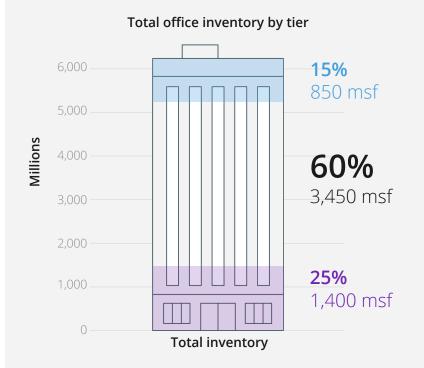

Future supply / demand imbalance

61% of landlords core technologies are based on legacy systems²

Cushman and Wakefield estimates that nearly 60% of US office inventory needs upgrading to meet occupier demands¹

Top - a fraction of total inventory garnering a premium over all the rest

Middle - upgrades required as facing competitive obsolescence

Bottom - older, functionally obsolete, high-vacancy, excess space that will require some form of repositioning or repurposing strategy

Over 3.4bn sq ft of us office inventory needs upgrading

This Presentation, its contents and any information provided or discussed in connection with it may not be reproduced, redistributed or transmitted, directly or indirectly, to any other person or published, in whole or in part, for any purpose, without the prior consent of the Company.

This Presentation is for information purposes only and does not constitute or form part of any offer or invitation to sell or issue or any solicitation of any offer to purchase or subscribe for any shares or other securities of the Company in any jurisdiction nor shall it (or any part of it), or the fact of its distribution, form the basis of, or be relied upon in connection with or act as any inducement to enter into, any contract or commitment whatsoever. This Presentation is not a recommendation regarding the securities of the Company or the basis of any investment decision. Recipients should therefore not purchase, subscribe for or otherwise acquire any securities of the Company on the basis of this Presentation or the oral presentation made in conjunction with this Presentation.

This Presentation does not purport to be a complete description of the Company's business or results. No undertaking, representation, warranty or other assurance, express or implied, is made or given by or on behalf of the Company nor any of its directors, officers, employees, agents, affiliates, representatives or advisers or any other person as to the accuracy or completeness of the information or opinions contained in this Presentation and no responsibility or liability is accepted by any of them for any such information or opinions.

The information contained in this Presentation is provided as at the date of its publication. This Presentation contains statements that are, or may be deemed to be, "forward-looking statements". These forward-looking statements may involve substantial risks and uncertainties and actual results and developments may differ materially from those expressed or implied by these statements by a variety of factors. Forward-looking statements are sometimes identified by the use of forward-looking terminology such as "believe", "expects", "may", "will", "could", "shall", "risk", "intends", "estimates", "aims", "predicts", "continues", "assumes", "positioned" or "anticipates" or the negative thereof, other variations thereon or comparable terminology. These forward-looking statements speak only as at the date of this Presentation. In addition, all projections, valuations and statistical analyses provided in this Presentation may be based on subjective assessments and assumptions and may use among alternative methodologies that produce different results and should not be relied upon as an accurate prediction of future performance. Except as required by applicable law or regulation, neither the Company nor any of its directors, officers, employees, agents, affiliates, representatives or advisers undertakes or agrees any obligation to update or revise any forward-looking or other statements or information in this Presentation, whether as a result of new information, future developments or otherwise. No statement in this Presentation is intended as a profit forecast or profit estimate (unless otherwise stated).

Where applicable, any industry, market and competitive position data contained in this Presentation has come from official or third party sources. Third party industry publications, studies and surveys generally state that the data contained therein have been obtained from sources believed to be reliable, but that there is no guarantee of the accuracy or completeness of such data and the Company has not independently verified the data contained therein.

Past performance is not indicative of future results. The value of investments may fall as well as rise and investors may not get back the amount invested. Changes in rates of foreign exchange may cause the value of investments to go up or down. No representation is being made that any investment will or is likely to achieve profits or losses similar to those achieved in the past, or that significant losses will be avoided.

This Presentation is intended for distribution in the United Kingdom only to persons who have professional experience in matters relating to investments, who are investment professionals, high net worth companies, high net worth unincorporated associations or partnerships or trustees of high value trusts, and investment personnel of any of the foregoing (each within the meaning of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005).
